RE: Objection to Debtor's Filed Plan only, as it pertains to  
 Unsecured Creditor - Estate of Rosario Rapisardi.

To All Counsel,

I am filing an objection to the plan, which was  
 sent to the Estate on short notice and to try to quickly review and  
 comment on. My Objection is two fold: # one, the Estate is not interested  
 in any parent stock option as a form of payment on this claim. And # Two,  
 as the Debtor's Counsel and the Bankruptcy Court is aware of, this claim  
 arose from an Environmental and Financial Impact to our Farming Business,  
 either by directly or indirect Debtor's association with various entities that  
 were either contracted, or Employed by Debtors to construct a roadway  
 abutting our family farm lands. These assessments were made as per U.S.  
 D. E. P. personnel and are still in Litigation to date.

So as a result of this continued impact, this  
 original claim will need to be amended to include all costs, such as  
 restoration, remediation, legal, Engineering, Surveying, legal, Fencing off and need  
 restricting all activities on this section of Farm forever. This additional financial  
 impact assessment will have to be calculated by an appraiser, and the Estate  
 does not have a clue on all these additional costs. I am requesting permission  
 from Bankruptcy Court to either allow us to amend the claim amount, or to set  
 aside an escrow account by the appointed Trustee for this task.

C.C. The Honorable Judith K. Fitzgerald  
 and FAXed to All Counsel on short notice.

Sincerely,  
 James P. Rapisardi - Executor  
 Pro-Sec
